

# Year 1 Newsletter-Autumn 1

## Welcome to Class 3!

We have made a wonderful start to the year and everyone has settled in well. Year 1 is going to be an exciting adventure where we will make new friends, learn amazing things, and try lots of fun activities. We have lots of lovely things planned, ensuring each day is a chance to discover, play, and grow.

We can't wait to see what the year brings!

*"I love going on the Ipads on Purple Mash!" Myles.*

*"Making our Gruffalo crumble was so much fun!" Grace.*

## Investigating Wind Direction...

In science we have been looking at seasonal change and observing how the weather changes between each season.

We explored different types of weather and weather symbols.

We then took part in a scientific enquiry, making our own weathervanes to observe the direction of the wind. We recorded our data and explained what it showed us.

## Magnificent Maths...

In our place value and counting lessons, we explored how numbers work! We learned to count, group, and understand tens and ones to see how numbers are built. Using fun games, hands-on activities, and counting tools, we practiced making, reading, and writing numbers with confidence.

## Gruffalo Crumble...

In literacy we have been reading The Gruffalo.

We have been fruit tasting, making lists of things we want to put in our own Gruffalo crumble, going on Autumnal walks to find fruits and berries.

We made our very own Gruffalo crumble and created instructions so we can follow them if we want to make it again.

## Reminders:

- Maths Homework to be completed on NumBots online.
- Reading books given out each Friday.
- PE-every Thursday.
- School breaks up for half term on Friday 24<sup>th</sup> October for one week.
