

The Hub Newsletter Autumn 2

Winter- We have enjoyed exploring our 'Winter' topic indoors and outdoors, exploring the change of season and weather. We interacted with winter themes tuff trays, talking about the texture of the items we could see. Matched snowmen shaped to their shadows and had fun making pretend snow in our attention autism sessions.

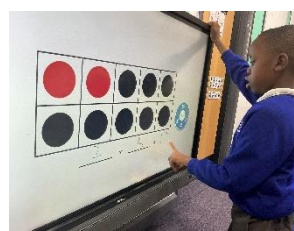

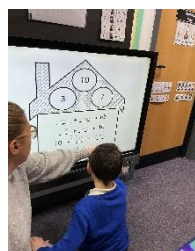

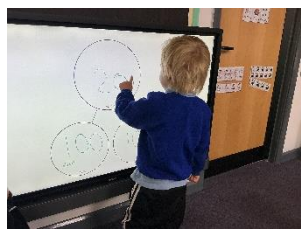

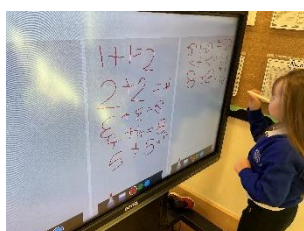

The Gruffalo- We LOVED our Gruffalo topic! We got into role dressing up as the characters from the story reciting the key phrases and events. We listened to the story during our group sessions, singing along to the songs. We enjoyed working with Mrs Mahone to make gingerbread characters from the story.

Fire safety- The fire fighters came to visit us in school and we loved getting a chance to sit on board the fire engine looking at the features it had. The fire fighters turned on the flashing lights and siren for us to hear.

Maths- We have loved taking part in our small group maths sessions working on lots of skills this half term. We have focused on counting in 2's and 5's, identified ways of making ten and looked at the relationship between addition and subtraction to complete fact family triangles.

Announcements!

School breaks up on **Friday 19th December** and reopens for children on **January**.
