

Nursery Newsletter Spring 2

We have been very busy playing in the snow, learning about hot and cold countries, celebrating Lunar New Year having our adults visit us and much, much more!

We are ready for the Easter term break!

Number Day 2026

Nursery took part in NSPCC Number Day, it was a fun-filled session of learning through play. We dressed up to celebrate the day and spent the whole session enjoying a variety of number-based activities.

Children's Mental Health Week

For Children's Mental Health Week, our nursery focused on helping the children understand their feelings and ways to look after their wellbeing. We also invited parents to a special workshop to share the activities we had been doing and show the grown-ups how we support positive mental health in nursery, it was such fun to have them in class with us.

Lunar New Year

Nursery celebrated Lunar New Year by learning about the story and traditions of the festival. We made red envelopes and hoped that some sweets might appear in them overnight.

We also tried Chinese food, noodles were our favourite, listened to Chinese music, and had lots of fun dancing like dragons to celebrate the New Year together.

Winter and The Stickman

We learned about the season of winter by enjoying the story *Stick Man*. The book helped us to notice winter signs such as cold weather, bare trees, and snowy days, while following Stick Man's adventure. The children also had a fantastic time outside as we had lots of real snow to play in!

We are having so much fun, don't forget to check the 'Nursery' page of the website to get updates on what we get up to.

Reminders

Last day of term Thursday 2nd April
Return to school Monday 20th April
