

The Hub Newsletter Spring 2

Ducklings: The children loved watching the duck eggs hatch and were very excited to see the ducklings appear. They helped to look after them by keeping their space clean and making sure they had everything they needed. The children enjoyed feeding the ducklings and learned how to hold them gently and carefully. They also learned about ducks and their life cycle, understanding how they grow from eggs into ducklings and then into adult ducks. It was a lovely hands-on experience that helped them learn about caring for animals and being kind and gentle.

Science Week: our class explored the theme of space and the planets within our solar system. Pupils took part in a range of structured activities designed to introduce key scientific ideas in an accessible and engaging way. Through sensory exploration, discussion and practical tasks, pupils learned about the different planets, considering their colours, sizes and key features.

Peace at Last: We enjoyed reading the story and using the characters from the story to play and create our own story lines. We created bears in lots of different ways such as play-dough and collage.

World Book Day: The children came into school dressed up as their favourite book characters. We enjoyed reading lots of stories and looking at our favourite characters.

Announcements!

School breaks up on **Thursday 2nd April** and reopens for children on **Monday 20th April**.
