

# Year 1 Newsletter-Spring

## Wonderful Wetlands!

Year 1 had a fantastic day visiting Washington Wetland Centre. The children took part in activities led by Ava, a fun puppet who was half human and half osprey, and helped them learn about habitats and wildlife. One of the highlights of the day was watching the otters being fed, which the children really enjoyed. They also loved seeing the birds and animals up close. The visit supported our learning about living things and encouraged outdoor exploration.

*"I wish it could snow every day!" Jack.*

## Let it snow...

In January, we had a wonderful time enjoying the snowy weather! The children wrapped up warm and headed outside to build snowmen, working together and sharing lots of fun and laughter. They also carried out a little investigation, seeing how long they could hold snow in their hands and talking to each other about how it felt as it melted. This hands-on experience helped the children learn more about seasonal change, noticing how winter weather is different from other times of the year.

*"I had so much fun on our trip!" Alfie.*

## Materials

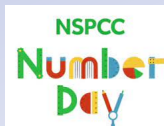

In science, we have been exploring and identifying a range of everyday materials, including wood, plastic, metal, glass, and fabric. We sorted objects into groups and discussed why different materials are used for different purposes.

## Number Day!

Year 1 had a great time dressing up for NSPCC Number Day! The children wore fantastic number-themed outfits and enjoyed fun maths activities while supporting an important cause.

## Reminders:

- Maths homework to be completed on NumBots online.
- Reading books given out each Friday.
- PE-every Thursday.
- School finishes Friday 20th February.
- Friday 6th March- World Book Day.
- Friday 20th March- Red Nose Day.
