

Year 5 Newsletter 1!

We have had the best 5 weeks! Everyone came back settled and ready to learn and amazed us all with their effort and attitude-we are very lucky to have such a brilliant bunch!

In PE we are doing dance! We are looking at dances from the 40's including the Shuffle and Charleston and choreographing a dance that shows soldiers on the way to war, fighting, returning then celebrating too!

"I didn't like dance at first but now I love it-I'm great at marching-I'm the best!"
JJ Gillespie

In science, we are looking at changing materials! We have investigated the properties of different materials, sorted them into groups and tested their ability to conduct electricity too! It was so good Mr Robson even came in!

"I loved using the magnets with the paper clips and sieving the sand-it was fun!"
Kayden Butler

In Space Week, we looked at Newton's third law. We replicated the law using Coke and Mentos and this also showed us how rockets took off from Earth. We had a great time and made excellent predictions!

We have also thought about our aspirations and what we want to do when we get older-we are reaching high and showing our true potential!

"I loved watching the Coke and Mentos and was hoping the teachers got splashed!"
Harper

Announcements!

School breaks up on **Friday 23rd October**

Children return to school on **Monday 2nd November**

Next half term we will have lots of exciting things planned on the lead up to Christmas-we will send dates out closer to the time-keep an eye on the website!
